"Documentation" shall mean the user manual and other similar information about the features and use of the Program Products. Such documentation shall be provided, at Company's option, in either hard-copy or in electronic form.

III. DELIVERY

Company shall furnish Customer, on or about a mutually agreeable delivery date, the then current version of the Program Products.

IV. OWNERSHIP/CONFIDENTIALITY

Customer acknowledges that the Program Products, including all underlying intellectual property rights, are and shall remain the exclusive property of Company and that Company holds the copyright interests therein, the Program Products being treated as unpublished works. For purposes of this provision, the term "Program Products" shall include, without limitation, all databases and database files. Customer further acknowledges that the Program Products incorporate trade secrets and confidential information of Company, and Customer shall hold the trade secrets and confidential information in trust and shall not disclose, publish, release, transfer or otherwise make available any Program Products, in any form, to any person other than an employee of Customer or Company without the prior written consent of Company, except during the period any such person is on Customer's premises for purposes specifically related to Customer's use of the Program Products. Customer shall take all reasonable steps to insure that its employees comply with the terms of the provision. Customer shall not allow the Company's Program Products to enter the public domain.

The Program Products shall be used only for the processing of Customer's own transactions and maintaining its own records. Customer shall not: (a) permit any third party to use the Program Products or the related documentation, or permit access thereto except by its employees who need such access to carry out their duties in the ordinary and normal course of Customer's business; (b) use the Program Products or the related documentation in the operation of a service bureau or to process data or transactions for other persons or entities; or (c) allow access to the Program Products through terminals (other than those of Company) located outside Customer's business premises without the express written consent of Company.

Customer acknowledges that the Company may, at its option, provide the Program Products in either an object code or an interpreted code version. In any case, the Customer shall not translate, reverse engineer, decompile, recompile, update, enhance, modify or create derivations for all or any part of any Program Product(s) or merge any Program Product(s) into any other software. In the event Customer breaches this provision, Company's responsibility, if any, to support the Program Products shall immediately cease and the Customer's right to use the Program Products shall immediately terminate.

Customer shall have the right to copy the Program Products for backup and archival purposes only. Customer shall not remove any copyright, trademark, proprietary legends, or legal or warning notices included on or embedded in any Program Products. All copies made by Customer shall be the property of Company.

Customer recognizes and acknowledges that in the event of any breach of this provision (either actual or threatened) by Customer, Company's remedies at law shall be inadequate. Customer agrees that, in such event, Company shall have the right of specific performance or injunctive relief; or both, in addition to any and all remedies and rights of law or in equity and such rights and remedies shall be cumulative.

Company represents that it has the legal right to license Customer to use the Program Products.

APPLICATION SOFTWARE (cont.)

Any data supplied by Customer shall remain the property of Customer. Upon termination of this Agreement and upon request by Customer, Company shall return the data to Customer in a format reasonably requested by Customer (other than Company's proprietary format) upon payment of Company's then current fee for this service. Customer shall in no event continue to use the database or database files or provide the database or database files to any third party after the termination date.

VI. WARRANTY

Each Program Product is warranted, for a period of one year, to conform to the design specification for that release as designated on the Program Product specification or similar applicable release. Customer agrees that its sole and exclusive remedy and Company's sole obligation, if a Program Product warranted hereunder fails to conform to the applicable design specifications and Customer has advised Company of such failure in writing during the term of the warranty, is for Company to provide programming services to attempt to correct any defect in a timely manner. For purposes of this provision, non-conformance to design specification and the term "defect" shall mean only significant deviations from the design specifications for such current release of the Program Product. In the event Company does not correct any such defect after it has had reasonable opportunity to do so, Customer's exclusive remedy shall be the refund of the amount paid as the license fee for the defective Program Product.

Company warrants that the Program Products will operate accurately, and will not abruptly end or provide invalid or incorrect results, during operation prior to, on or after January 1, 2000.

THE ABOVE IS THE ONLY WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, THAT IS MADE BY THE COMPANY WITH RESPECT TO PROGRAM PRODUCTS. THE COMPANY MAKES NO OTHER SUCH WARRANTY, INCLUDING BUT NOT LIMITED TO, THE IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE HEREBY DISCLAIMED. NO ORAL OR WRITTEN REPRESENTATIONS, INFORMATION OR ADVICE GIVEN BY THE COMPANY, ITS AGENTS OR ITS EMPLOYEES SHALL CREATE A WARRANTY OR IN ANY WAY INCREASE THE SCOPE OF THE ABOVE WARRANTY, AND CUSTOMER MAY NOT RELY ON ANY SUCH INFORMATION OR ADVICE FOR THAT PURPOSE.

VII. INTELLECTUAL PROPERTY INDEMNITY

Company agrees to indemnify, save harmless and defend Customer, at the expense of Company, from any and all suits, judgments, costs, damages, claims, demands, actions, causes of action, proceedings, expenses or liabilities of any nature, which are threatened or brought against, or are incurred by, Customer arising from a claim that any element of the licensed application Program Products constitutes an infringement of any United States patent or copyright, or is a trade secret of another; provided, however, that Company is notified thereof promptly in writing. Company shall have the sole control of the defense of any such suit, proceeding or action. Company, in its sole discretion, shall have the right to settle any such suit, proceeding or action.

If the use of any element of a Program Product is enjoined or prohibited or threatened to be enjoined or prohibited as a result of any such claim, suit, action, proceeding or settlement, Company shall have the right to (a) procure for Customer the right to continue to use said element; (b,) replace said element with a comparable element which is non-infringing or is not such a trade secret; (c) modify said element so it becomes non-infringing or no longer is such a trade secret; or (d) terminate the license for said element and credit Customer the amounts Customer has paid to Company for said Program Product.

APPLICATION SOFTWARE (cont.)

VIII. RETURN UPON TERMINATION

Within thirty (30) days after the termination or cancellation for any reason of the license(s) granted hereunder, Customer shall deliver to the Company the Program Products, and all copies thereof in whichever form. Customer shall certify, in writing, to Company that it has destroyed all electronic and/or archival copies of the Program Products. Upon prior written authorization from the Company, the Customer shall be permitted for a specific period thereafter to retain one copy of certain materials for record purposes.

Company shall be responsible for using all reasonable diligence to attempt to correct or cure any verifiable and reproducible Error or Defect in a Program Product by issuing corrected instructions, a restriction, a bypass or procedural workaround or a new Release. Company shall not be responsible for correcting any Error or Defect in any version of the Program Products other than the most recent Version/Release of the Program Product, provided that Company shall continue to support prior Releases for a reasonable period sufficient to allow Customer to implement the newest Version/Release. Company shall issue new Releases of the Program Products from time to time to its contracted support customers. Such Releases may include functionality enhancements, error corrections and modifications required by legislation and/or administrative rule. In no event will any such fees exceed Company's then current list price for that Program Product. 3

From time to time, Company may develop a completely new Version of a Program Product. Said Version would typically incorporate the use of new technologies as well as the addition of significant functional enhancements. For such new Versions, Customer must pay additional license fees, as determined by Company. In such event, Company shall continue to support the prior Version of the Program Product for a reasonable period.

SUPPORT SERVICES (cont.)

II. SCOPE OF SERVICES (cont.)

For each system software product that is supported by Company, such support shall include trouble shooting, technical analysis, program diagnosis and procedural assistance. All such services shall be provided via telephone contact with Customer and/or remote dial-up access by Company into Customer's computer system. For almost all system software products provided by Company, Customer must pay additional fees for new releases and new versions. For certain select system software products, Company does offer a comprehensive support services plan which includes new releases/versions at no additional cost. Any products covered under this plan must be specifically identified as such on Schedule A hereto.

B. EQUIPMENT

Company shall provide onsite equipment maintenance for those hardware products specifically identified as eligible for Company maintenance on Schedule A hereto. Equipment maintenance services shall include troubleshooting, technical analysis, problem diagnosis and repair or replacement of the defective device. In any event, Company shall remain solely responsible to Customer for problem resolution.

In such event, Company shall ship the loaner unit to Customer and Customer shall ship the defective unit to Company for repair. Once repair has been completed, the unit shall be returned to Customer and Customer shall return the loaner unit to Company. These services will be provided Customer at additional cost, billed at the Company's then current daily rate, plus travel related expenses.

Should the Customer from time to time require and request other services offered by the Company but not covered under this Agreement, the Company will provide such services at its then current time, materials and travel rates.

The Company reserves the right to request that Customer upgrade its equipment, systems software and/or Program Products to a subsequent or new release, version or model on Company request.
